2.5” Protable Hard Drive

Armor A50

Elegant

Armor A50 features hairline treated aluminum construction. The hairline surface is fingerprint free and its raised imprint logo gives off an elegant aura, perfect for the business professional.

Shockproof

In compliance with US MIL-STD-810F (transit drop test), it was tested for

(1) Product dropped directly onto a concrete floor (or harder surface);

(2) On a drop-test machine, the product freefalls from a height of 122cm and from the freefall;

(3) There are 26 contact points (8 corners, 12 cut surfaces and 6 major surfaces) that were tested.

Easy to use

Backup your data at the press of a single button, easy and convenient!

Software

Armor A50 comes with a 60-day trial version of Norton Antivirus software. Armor A50 provides users with 24/7 protection, hardware and software wise!
